(Unaudited)

This report is submitted for the general information of the shareholders of the Gotham Funds. It is not authorized for distribution unless preceded or accompanied by a current prospectus for the Gotham Funds.

# GOTHAM FUNDS

## Important Information

*The performance data quoted in this report represents past performance and does not guarantee future results. The investment return and principal value of an investment in a Gotham Fund will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher. Performance data current to the most recent month-end may be obtained by calling (877) 974-6852.*

Each Gotham Fund covered by this report (each a, "Fund") compares its performance to an unmanaged index. An index does not reflect operational and transactional costs which apply to a mutual fund. It is not possible to invest direct in an index.

Mutual fund investing involves risks, including possible loss of principal. Short sales theoretically involve unlimited loss potential since the market price of securities sold short may continuously increase. Each Fund will also use leverage to make additional investments which could result in greater losses than if the Fund were not leveraged. A Fund may invest in securities of large-, mid- and small-cap companies. The securities issued by small-cap and mid-cap companies tend to be more volatile and less liquid than those of large-cap issuers. A Fund may have a high turnover of its portfolio securities. High turnover rates generally result in higher brokerage costs to a Fund. There can be no guarantee that a Fund will achieve its objectives.

*A prospective investor should consider the investment objectives, risks, charges and expenses of a Fund carefully before investing. The prospectus and summary prospectus contains this and other information about the Funds, and should be read carefully before investing. A copy of the prospectus or summary prospectus is available at [www.GothamFunds.com](http://www.GothamFunds.com) or by calling 877-974-6852.*

\*\* The Gotham Absolute Return Fund (the "Fund") commenced operations on August 31, 2012.

\*\*\* Benchmark performance is from inception date of the Fund only and is not the inception date of the benchmark itself.

**Past performance does not guarantee future results.** *The table does not reflect the deduction of taxes that a shareholder would pay on Fund distributions or redemption of Fund shares; nor a 1.00% fee applied by the Fund's Institutional Class to the value of shares redeemed within 30 days of purchase.*

As stated in the current prospectus dated February 1, 2018, the "Total Annual Fund Operating Expenses" are 2.95% and the "Total Annual Fund Operating Expenses After Fee Waivers and/or Expense Reimbursements" are 2.81% for Institutional Class Shares of the Fund's average daily net assets. These ratios may differ from the actual expense incurred by the Fund for the period covered by this report. Gotham Asset Management, LLC ("Gotham" or the "Adviser") has contractually agreed to reduce its investment advisory fee and/or reimburse certain expenses of the Fund to the extent necessary to ensure that the Fund's total operating expenses (exclusive of taxes, "Acquired Fund Fees and Expenses," dividend and interest expense on securities sold short, interest, extraordinary items, and brokerage commissions) do not exceed 2.15% (on an annual basis) of average daily net assets of the Fund (the "Expense Limitation"). The Expense Limitation will remain in place until August 31, 2020, unless the Board of Trustees of FundVantage Trust (the "Trust") approves its earlier termination. The Adviser is entitled to recover, subject to approval by the Board of Trustees, such amounts reduced or reimbursed for a period of up to three (3) years from the date on which the Adviser reduced its compensation and/or assumed expenses for the Fund. The Adviser is permitted to seek reimbursement from the Fund, subject to certain limitations, for fees it waived and Fund expenses it paid to the extent the total annual fund expenses do not exceed the limits described above or any lesser limits in effect at the time of reimbursement. No recoupment will occur unless the Fund's expenses are below the Expense Limitation.

The Fund intends to evaluate performance as compared to that of the Hedge Fund Research Inc. Equity Hedge Index ("HFRX"). The HFRX is an index of quantitatively-selected hedge funds which maintain positions both long and short in primarily equity and equity derivative securities. Constituents of the HFRX report net of all fees returns.

## Fund Expense Disclosure March 31, 2018 (Unaudited)

As a shareholder of a Fund, you incur two types of costs: (1) transaction costs, including redemption fees; and (2) ongoing costs, including management fees and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in a Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

These examples are based on an investment of \$1,000 invested at the beginning of the six-month period from October 1, 2017, and held for the entire period through March 31, 2018.

### Actual Expenses

The first line for each Fund in the accompanying table provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

### Hypothetical Example for Comparison Purposes

The second line for each Fund in the accompanying table provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not your Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the accompanying table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as redemption fees. Therefore, the second line of the accompanying table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

	Institutional Class			
	Beginning Account Value October 1, 2017	Ending Account Value March 31, 2018	Annualized Expense Ratio*	Expenses Paid During Period**
<b>Gotham Absolute Return Fund</b>				
Actual	\$1,000.00	\$1,050.20	2.72%	\$13.90
Hypothetical (5% return before expenses)	1,000.00	1,011.37	2.72%	13.64
<b>Gotham Enhanced Return Fund</b>				
Actual	\$1,000.00	\$1,090.30	3.67%	\$19.13
Hypothetical (5% return before expenses)	1,000.00	1,006.63	3.67%	18.36
<b>Gotham Neutral Fund</b>				
Actual	\$1,000.00	\$1,039.10	2.82%	\$14.34
Hypothetical (5% return before expenses)	1,000.00	1,010.87	2.82%	14.14

\* Annualized expense ratios include dividend expense on securities sold short and interest expense on securities sold short and borrowings.

\*\* Expenses are equal to a Fund's annualized expense ratio, in the table above, which include waived fees or reimbursement expenses for the six-month period ended March 31, 2018, multiplied by the average account value over the period, multiplied by the number of days in the most recent period (182), then divided by 365 to reflect the period. Hypothetical expenses are equal to the Institutional Class Share's annualized expense ratios, multiplied by the average account value over the period, multiplied by the number of days in the most recent six-month period (182), then divided by 365 to reflect the period.

\* The Fund changed its fiscal year end from April 30 to September 30.

\*\* Commencement of operations. Initial seed capital was issued at \$10.00 per share on August 31, 2012.

(1) The selected per share data was calculated using the average shares outstanding method for the period.

(2) Amount is less than \$0.005 per share.

(3) Total investment return is calculated assuming a purchase of shares on the first day and a sale of shares on the last day of each period reported and includes reinvestment of dividends and distributions, if any. Total returns for periods less than one year are not annualized.

(4) Expense ratio includes dividend and interest expense related to securities sold short. Excluding such dividend and interest expense, the ratio of expenses to average net assets for the Fund would be 2.15%, 2.15%, 2.20%, 2.15%, 2.15%, 2.20% and 2.25%, for the six months ended March 31, 2018, the years ended September 30, 2017 and 2016, the period ended September 30, 2015, the years ended April 30, 2015 and 2014 and the period ended April 30, 2013, respectively.

## Notes to Financial Statements March 31, 2018 (Unaudited)

### 1. Organization and Significant Accounting Policies

The Gotham Absolute Return Fund, the Gotham Enhanced Return Fund and the Gotham Neutral Fund (each a "Fund" and together, the "Funds") are each a diversified, open-end management investment company registered under the Investment Company Act of 1940, as amended (the "1940 Act"). The Funds are each a separate series of FundVantage Trust (the "Trust") which was organized as a Delaware statutory trust on August 28, 2006. The Trust is a "series trust" authorized to issue an unlimited number of separate series or classes of shares of beneficial interest. Each series is treated as a separate entity for certain matters under the 1940 Act, and for other purposes, and a shareholder of one series is not deemed to be a shareholder of any other series. Each of the Funds offers one class of shares, Institutional Class. The Fund's commencement of operations are as follows:

Gotham Absolute Return Fund ("Absolute Return") .....	August 31, 2012
Gotham Enhanced Return Fund ("Enhanced Return").....	May 31, 2013
Gotham Neutral Fund ("Neutral") .....	August 30, 2013

All the Funds seek to achieve their investment objectives by primarily investing in long and short positions of U.S. equity securities. Equity securities include common and preferred stocks.

The Funds are investment companies and follow accounting and reporting guidance in the Financial Accounting Standards Board *Accounting Standards Codification Topic 946*.

**Portfolio Valuation** — Each Fund's net asset value ("NAV") is calculated once daily at the close of regular trading hours on the New York Stock Exchange ("NYSE") (typically 4:00 p.m. Eastern time) on each business day the NYSE is open. Each Fund's equity securities, including exchange-traded funds, listed on any national or foreign exchange market system will be valued at the last sale price. Equity securities traded in the over-the-counter market are valued at their closing sale or official closing price. If there were no transactions on that day, securities traded principally on an exchange will be valued at the mean of the last bid and ask prices prior to the market close. Prices for equity securities normally are supplied by an independent pricing service approved by the Board of Trustees (the "Board"). Any assets held by a Fund that are denominated in foreign currencies are valued daily in U.S. dollars at the foreign currency exchange rates that are prevailing at the time that a Fund determines the daily NAV per share. Foreign securities may trade on weekends or other days when a Fund does not calculate NAV. As a result, the market value of these investments may change on days when you cannot buy or sell shares of a Fund. Certain Funds invest in securities of other investment companies, which are valued at their respective NAVs as determined by those investment companies each business day. Securities that do not have a readily available current market value are valued in good faith under the direction of the Board. The Board has adopted methods for valuing securities and other assets in circumstances where market quotes are not readily available and has delegated to Gotham Asset Management, LLC ("Gotham" or "the Adviser") the responsibility for applying the valuation methods. In the event that market quotes are not readily available, and the security or asset cannot be valued pursuant to one of the valuation methods, the value of the security, asset or liability will be determined in good faith by the Adviser. The Trust has established a Valuation Committee which performs certain functions including the oversight of the Adviser's fair valuation determinations.

**Fair Value Measurements** — The inputs and valuation techniques used to measure fair value of a Fund's investments are summarized into three levels as described in the hierarchy below:

- Level 1 — quoted prices in active markets for identical securities;
- Level 2 — other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.); and
- Level 3 — significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

All financial instruments listed in the Portfolio of Investments are considered Level 1, measured at fair value on a recurring basis based on quoted prices for identical assets in active markets, except for the following: a corporate debt security with end of period

value of \$784 and \$714 held by Absolute Return and Neutral, respectively. These securities are considered Level 2 as of and for the period ended March 31, 2018.

At the end of each quarter, management evaluates the classification of Levels 1, 2 and 3 assets and liabilities. Various factors are considered, such as changes in liquidity from the prior reporting period; whether or not a broker is willing to execute at the quoted price; the depth and consistency of prices from third party pricing services; and the existence of contemporaneous, observable trades in the market. Additionally, management evaluates the classification of Level 1 and Level 2 assets and liabilities on a quarterly basis for changes in listings or delistings on national exchanges.

Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of a Fund's investments may fluctuate from period to period. Additionally, the fair value of investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values the Funds may ultimately realize. Further, such investments may be subject to legal and other restrictions on resale or otherwise less liquid than publicly traded securities.

For fair valuations using significant unobservable inputs, U.S. generally accepted accounting principles ("U.S. GAAP") require the Funds to present a reconciliation of the beginning to ending balances for reported market values that presents changes attributable to total realized and unrealized gains or losses, purchase and sales, and transfers in and out of Level 3 during the period. Transfers in and out between Levels are based on values at the end of the period. U.S. GAAP also requires the Funds to disclose amounts and reasons for all transfers in and out of Level 1 and Level 2 fair value measurements. A reconciliation of Level 3 investments is presented only when the Funds had an amount of Level 3 investments at the end of the reporting period that was meaningful in relation to its net assets. The amounts and reasons for all transfers in and out of each Level within the three-tier hierarchy are disclosed when the Funds had an amount of total transfers during the reporting period that was meaningful in relation to its net assets as of the end of the reporting period.

For the period ended March 31, 2018, there were no transfers between Levels 1, 2 and 3 for the Funds.

**Use of Estimates** — The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates and those differences could be material.

**Investment Transactions, Investment Income and Expenses** — Investment transactions are recorded on trade date for financial statement preparation purposes. Realized gains and losses on investments sold are recorded on the identified cost basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. General expenses of the Trust are generally allocated to each Fund in proportion to its relative daily net assets. Expenses directly attributable to a particular Fund in the Trust are charged directly to that Fund.

**Dividends and Distributions to Shareholders** — Dividends from net investment income and distributions from net realized capital gains, if any, are declared, recorded on ex-date and paid at least annually to shareholders. Income dividends and capital gain distributions are determined in accordance with U.S. federal income tax regulations, which may differ from U.S. GAAP. These differences include the treatment of non-taxable dividends, expiring capital loss carryforwards and losses deferred due to wash sales and excise tax regulations. Permanent book and tax basis differences relating to shareholder distributions will result in reclassifications within the components of net assets.

**U.S. Tax Status** — No provision is made for U.S. income taxes as it is each Fund's intention to continue to qualify for and elect the tax treatment applicable to regulated investment companies under Subchapter M of the Code, as amended, and make the requisite distributions to its shareholders which will be sufficient to relieve it from U.S. income and excise taxes.

**Other** — In the normal course of business, the Funds may enter into contracts that provide general indemnifications. A Fund's maximum exposure under these arrangements is dependent on claims that may be made against the Fund in the future, and, therefore, cannot be estimated; however, based on experience, the risk of material loss for such claims is considered remote.

**(Unaudited)**

**Short Sales** — The Funds sell securities short. A short sale involves the sale by a Fund of a security that it does not own with the anticipation of purchasing the same security at a later date at a lower price. If the price of the security has increased during this time, then the Fund will incur a loss equal to the increase in price from the time that the short sale was entered into plus any premiums and interest paid to the third party. Therefore, short sales involve the risk that losses may be exaggerated, potentially losing more money than the actual cost of the investment. Also, there is the risk that the third party to the short sale may fail to honor its contract terms, causing a loss to the Fund. There can be no assurance that a Fund will be able to close out a short position at any particular time or at an acceptable price. Although a Fund's gain is limited to the amount at which it sold a security short, its potential loss is unlimited. The Funds will comply with guidelines established by the Securities and Exchange Commission and other applicable regulatory bodies with respect to coverage of short sales.

As of March 31, 2018, the following Funds had securities sold short, securities pledged as collateral and deposits with brokers for securities sold short:

	<b>Value of Securities Sold Short</b>	<b>Securities Pledged as Collateral</b>	<b>Deposits with Brokers for Securities Sold Short</b>
Absolute Return .....	\$621,011,379	\$680,951,579	\$590,828,853
Enhanced Return .....	653,521,938	667,567,622	292,858,224
Neutral .....	448,573,623	450,101,587	386,465,278

In accordance with the terms of its prime brokerage agreements, the Funds may receive rebate income or be charged fees on securities sold short. Such income or fee is calculated on a daily basis based upon the market value of securities sold short and a variable rate that is dependent upon the availability of such security. These amounts are included in dividends and fees on securities sold short on the Statement of Operations. On the ex-dividend date, dividends on short sales are recorded as an expense to the Fund. The following Funds had net charges as shown in the table below for the period ended March 31, 2018:

	<b>Rebate (Income)/Fees</b>
Absolute Return .....	\$(1,682,193)
Enhanced Return .....	(1,951,873)
Neutral .....	(1,439,761)

The following Funds utilized short sales proceeds and incurred financing charges to finance purchases of long securities in order to accomplish the Funds' respective investment objectives. A financing fee is charged to the Funds based on the Federal Funds rate plus an agreed upon spread. These fees are included in dividends and fees on securities sold short and are as follows for the period ended March 31, 2018:

	<b>Short Sales Proceeds</b>	<b>Financing Charges</b>
Absolute Return .....	\$ 15,924,376	\$ 234,749
Enhanced Return .....	347,846,784	3,150,390
Neutral .....	47,669,222	652,292

## 2. Transactions with Related Parties and Other Service Providers

Gotham Asset Management, LLC ("Gotham" or the "Adviser") serves as investment adviser to the Funds pursuant to an investment advisory agreement with the Trust (the "Advisory Agreement"). For its services as the investment adviser, each Fund pays the Adviser a fee, which is computed and accrued daily and paid monthly, at an annual rate based on average daily net assets of each Fund as shown in the table below:

Absolute Return .....	2.00%
Enhanced Return .....	2.00%
Neutral .....	2.00%

# GOTHAM FUNDS

**Notes to Financial Statements (Continued)**  
**March 31, 2018**  
**(Unaudited)**

The Adviser contractually agreed to reduce its investment advisory fee and/or reimburse certain expenses of each Fund to the extent necessary to ensure that the Fund's total operating expenses (exclusive of taxes, "Acquired Fund Fees and Expenses," dividend and interest expense on securities sold short, interest, extraordinary items, and brokerage commissions) do not exceed the percentages set forth in the table below (on an annual basis) of each Fund's average daily net assets (the "Expense Limitation"). The Expense Limitation will remain in place until the termination date set forth below, unless the Board approves its earlier termination. The table below reflects the Expense Limitation amounts, as a percentage of average daily net assets, in effect during the period ended March 31, 2018.

	<b>Termination Date</b>
Absolute Return .....	2.15%
Enhanced Return .....	2.15%
Neutral .....	2.15%

For the period ended March 31, 2018, investment advisory fees accrued and waivers were as follows:

	<b>Gross Advisory Fee</b>	<b>Waiver/ Reimbursements</b>	<b>Net Advisory Fee (Reimbursement)</b>
Absolute Return .....	\$9,869,454	\$(457,448)	\$9,412,006
Enhanced Return .....	9,181,795	(125,357)	9,056,438
Neutral .....	4,978,760	(251,770)	4,726,990

For all Funds, the Adviser is entitled to recover, subject to approval by the Board, such amounts reduced or reimbursed for a period of up to three (3) years from the date on which the Adviser reduced its compensation and/or assumed expenses for the Fund. The Adviser is permitted to seek reimbursement from the Fund, subject to certain limitations, for fees it waived and Fund expenses it paid to the extent the total annual fund expenses do not exceed the limits described above or any lesser limits in effect at the time of reimbursement. No recoupment will occur unless a Fund's expenses are below the Expense Limitation amount. As of March 31, 2018, the amount of potential reimbursement from the Funds to the Adviser are as follows:

	<b>Expiration</b>	<b>Expiration</b>	<b>Expiration</b>	<b>Expiration</b>
	<b>09/30/2018</b>	<b>09/30/2019</b>	<b>09/30/2020</b>	<b>03/31/2021</b>
Absolute Return .....	N/A	N/A	\$1,216,153	\$457,448
Enhanced Return .....	N/A	N/A	162,171	125,357
Neutral .....	N/A	N/A	326,104	251,770

## Other Service Providers

The Bank of New York Mellon ("BNY Mellon") serves as administrator and custodian for the Funds. For providing administrative and accounting services, BNY Mellon is entitled to receive a monthly fee equal to an annual percentage rate of the Funds' average daily net assets and is subject to certain minimum monthly fees. For providing certain custodial services, BNY Mellon is entitled to receive a monthly fee, subject to certain minimum, and out of pocket expenses.

BNY Mellon Investment Servicing (US) Inc. (the "Transfer Agent") provides transfer agent services to the Funds. The Transfer Agent is entitled to receive a monthly fee, subject to certain minimum, and out of pocket expenses.

Pershing LLC provides prime brokerage services to the Funds under an Agreement for Prime Brokerage Services. Pershing LLC is a wholly owned subsidiary of The Bank of New York Mellon Corporation.

Foreside Funds Distributors LLC (the "Underwriter") provides principal underwriting services to the Funds pursuant to an underwriting agreement between the Trust and the Underwriter.

### Trustees and Officers

The Trust is governed by its Board of Trustees. The Trustees receive compensation in the form of an annual retainer and per meeting fees for their services to the Trust. The remuneration paid to the Trustees by the Funds during the period ended March 31, 2018 was \$121,824. An employee of BNY Mellon serves as the Secretary of the Trust and is not compensated by the Funds or the Trust.

JW Fund Management LLC ("JWFM") provides a Principal Executive Officer and Principal Financial Officer, respectively, to the Trust. JWFM is compensated for the services provided to the Trust.

Freeh Group International Solutions, LLC provides the Trust with a Chief Compliance Officer and an Anti-Money Laundering Officer.

### 3. Investment in Securities

For the six months ended March 31, 2018 for all Funds, aggregated purchases and sales of investment securities (excluding short-term investments) of the Funds were as follows:

	Purchases	Sales
Absolute Return . . . . .	\$1,613,046,167	\$1,505,771,437

## 5. Securities Lending

All Funds may lend securities to financial institutions, such as broker-dealers, and are required to be secured continuously by collateral in cash, cash equivalents, letter of credit or U.S. Government securities maintained on a current basis at an amount at least equal to the market value of the securities loaned. Cash collateral received, pursuant to investment guidelines established by the Funds and approved by the Board, is invested in short-term investments and/or securities consistent with the Fund's investment objective. Securities purchased with cash collateral are included in market value of securities designated as collateral for securities on loan on the Statements of Assets and Liabilities. All such investments are made at the risk of the Funds and, as such, the Funds are liable for investment losses. The Funds pay a fee on the cash collateral received by the Funds at a rate equal to the Federal Funds (Open) rate plus 40 basis points with respect to the cash collateral received on those securities on loan that have a rebate that equals or exceeds the greater of either the Federal Funds (Open) rate minus 10 basis points or zero. These fees are included in the fees on cash collateral on the Statement of Operations. Such loans would involve risks of delay in receiving additional collateral in the event the value of the collateral decreased below the value of the securities loaned or of delay in recovering the securities loaned or even loss of rights in the collateral should the borrower of the securities fail financially. However, loans will be made only to borrowers deemed by the Adviser to be of good standing and only when, in the Adviser's judgment, the income to be earned from the loans justifies the attendant risks. Any loans of a Fund's securities will be fully collateralized and marked to market daily. When the collateral falls below specified amounts, the lending agent will use its best effort to obtain additional collateral on the next business day to meet required amounts under the security lending agreement. During the period ended March 31, 2018, the Funds listed below each had securities lending programs. The market value of securities on loan and cash collateral received as of March 31, 2018 and the income generated from the programs during the period ended March 31, 2018, with respect to such loans are as follows:

	<b>Market Value of Securities Loaned</b>	<b>Cash Collateral Received</b>	<b>Market Value of Non-cash Collateral</b>	<b>Income Received from Securities Lending</b>
Absolute Return .....	\$187,460,262	\$189,224,481	\$—	\$181,746
Enhanced Return .....	300,101,648	302,594,223	\$—	159,884
Neutral.....	43,593,867	43,980,702	\$—	121,005

Securities lending transactions are entered into by the Funds under a Master Securities Lending Agreement ("MSLA") which permits the Funds, under certain circumstances including an event of default (such as bankruptcy or insolvency), to offset amounts payable by the Funds to the same counterparty against amounts to be received from that counterparty and create one single net payment due to or from the Funds. The following table is a summary of each of the Fund's open securities lending transactions which are subject to a MSLA as of March 31, 2018:

\* Amount disclosed is limited to the amount of assets presented in each Statement of Assets and Liabilities. Actual collateral received may be more than the amount shown.

\*\* Net amount represents the net receivable from the counterparty in the event of a default.

## 6. Federal Tax Information

The Funds have followed the authoritative guidance on accounting for and disclosure of uncertainty in tax positions, which requires the Funds to determine whether a tax position is more likely than not to be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. The Funds had determined that there was no effect on the financial statements from following this authoritative guidance. In the normal course of business, the Funds are subject to examination by federal, state and local jurisdictions, where applicable, for tax years for which applicable statutes of limitations have not expired.

There were no dividends or distributions paid by the Funds during the year ended September 30, 2017.

Distributions from net investment income and short-term capital gains are treated as ordinary income for federal income tax purposes.

As of September 30, 2017, the components of distributable earnings on a tax basis were as follows:

	<b>Capital Loss Carryforward</b>	<b>Undistributed Ordinary Income</b>	<b>Undistributed Long-Term Gain</b>	<b>Unrealized Appreciation/ (Depreciation)</b>	<b>Qualified Late-Year Losses</b>	<b>Other Temporary Differences</b>
Absolute Return .....	\$(101,603,797)	\$—	\$—	\$ 50,665,532	\$(30,415,253)	\$—
Enhanced Return .....	—	—	8,942,476	152,128,313	(4,161,004)	—
Neutral .....	(14,311,787)	—	—	20,559,804	(76,012,884)	—

The differences between the book and tax basis components of distributable earnings relate primarily to the timing and recognition of income and gains for federal income tax purposes. Foreign currency and short-term capital gains are reported as ordinary income for federal income tax purposes.

## Notes to Financial Statements (Concluded) March 31, 2018 (Unaudited)

As of March 31, 2018, the federal tax cost, aggregate gross unrealized appreciation and depreciation of securities held by the Funds were as follows:

	<b>Federal Tax Cost (Proceeds)*</b>	<b>Unrealized Appreciation</b>	<b>Unrealized (Depreciation)</b>	<b>Net Unrealized Appreciation/ (Depreciation)</b>
Absolute Return .....	\$531,834,649	\$144,306,525	\$(57,113,785)	\$ 87,192,740
Enhanced Return .....	748,686,171	190,787,033	(61,844,454)	128,942,579
Neutral .....	57,943,806	91,586,779	(33,949,507)	57,637,272

\* Because tax adjustments are calculated annually at the end of the Fund's fiscal year, the above table does not reflect tax adjustments for the current fiscal year. For the previous year's federal income tax information, please refer to the Notes to Financial Statements section in the Fund's most recent annual report.

Pursuant to federal income tax rules applicable to regulated investment companies, the Funds may elect to treat certain capital losses between November 1 and September 30 and late year ordinary losses ((i) ordinary losses between January 1 and September 30 or (ii) specified ordinary and currency losses between November 1 and September 30) as occurring on the first day of the following tax year. For the period ended September 30, 2017, any amount of losses elected within the tax return will not be recognized for federal income tax purposes until October 1, 2017. For the period ended September 30, 2017, the Funds deferred to October 1, 2017 the following losses:

	<b>Late-Year Ordinary Losses Deferral</b>	<b>Short-Term Capital Loss Deferral</b>	<b>Long-Term Capital Loss Deferral</b>
Absolute Return.....	\$6,483,311	\$23,931,942	\$—
Enhanced Return .....	4,161,004	—	—
Neutral.....	6,587,386	69,425,499	—

Accumulated capital losses represent net capital loss carryforwards as of September 30, 2017 that may be available to offset future realized capital gains and thereby reduce future capital gains distributions. Under the Regulated Investment Company Modernization Act of 2010 (the "Modernization Act"), the Funds are permitted to carry forward capital losses incurred in taxable years beginning after December 22, 2010 for an unlimited period. Additionally, post-enactment capital losses that are carried forward will retain their character as either short-term or long-term capital losses rather than being considered all short-term as under the previous law. As of September 30, 2017, the following Funds had long-term and short-term capital loss carryforwards in the following amounts:

	<b>Capital Losses Carryforwards</b>
Absolute Return.....	\$101,603,797
Neutral.....	14,311,787

### 7. Subsequent Events

Management has evaluated the impact of all subsequent events on the Funds through the date the financial statements were issued and has determined that there were no subsequent events requiring recognition or disclosure in the financial statements.
